PERSONAL PROJECTS

GYM Management System

▫ **Full Stack Web Project** Developed a dynamic web application using HTML, CSS, PHP, and MySQL (XAMPP) to manage gym package bookings and trainer applications. Integrated user-friendly forms, database connectivity, and admin controls for efficient member and trainer management.

Telecom Billing System

▫ Developed a Telecom Billing System to automate customer billing, plan management, and usage tracking.

Farming Equipment Rental System

▫ **Web-Based Application** Developed a rental platform using HTML, CSS, Node.js, and MySQL, enabling farmers to browse and book agricultural equipment. Features include user authentication, real-time availability, and efficient rental tracking.
